

## TRAVEL AWARD APPLICATION -- 2024

Limited travel reimbursement funds to defray costs of attending the 2024 IMAG/MSM meeting are available for those who have a financial need. The goal of this travel award is to support early career researchers and researchers from underrepresented groups in STEM (see [NSF STEM Workforce Report](#)); however, all groups are welcome to request this support as needed. Awards will be up to \$1200 to cover hotel and airfare to attend the meeting. *Travel award applications received by **September 25** will receive full consideration; applications received after that date may be considered, pending availability of funds.*

The Travel Award Application consists of two documents:

1. Cover letter describing interest in attending the IMAG/MSM Teaming4BDT Meeting in person, and why attendance would not be feasible without the travel award.
  2. Biosketch (no more than 2 pages) that includes contact information (address, phone, email) along with a one-page description of current research involvement/interests and career plans as they relate to Biomedical Digital Twins (BDT).
- **Combine both documents into a single .pdf file**
  - Make sure you are [registered for the meeting](#)
  - Log into the IMAG wiki and [Click here](#) to submit through the 2024 meeting dashboard.

*Travel awards are provided by the National Science Foundation (NSF), Division of Mathematical Sciences (DMS).*
